

DANIELSON AND PUTNAM NEWS

DANIELSON

The Goodyear Cotton Mills, Inc. will reopen next Tuesday morning, working on a schedule of 40 hours per week. This announcement was made at Goodyear Tuesday afternoon by P. W. Litchfield, vice president of the company, and about every man, woman and child in Good year was present to hear the glad news. The plant closed ten months ago today and has not since turned a wheel.

On a one shift 40 hours per week basis the mills will be on a basis of about 25 per cent. of the production that was being turned out last summer, when three shifts kept the mill going day and night, and will produce about 7 per cent. of the tire fabric used by the Goodyear Tire and Rubber company.

It was announced at the offices of the plant Tuesday afternoon following the mass meeting at which tidings that were exceedingly joyful to Goodyear folk were given out that 140 persons will be employed at the mill beginning next Tuesday. These employees will be taken exclusively from the village of Goodyear and no help from other places will be employed for the present.

The new officers of the Goodyear Mills, Inc. are: President, E. G. Wilmer; Vice president, P. W. Litchfield; Treasurer, H. H. Springsteen; Assistant treasurer, Herman M. Candler; Mr. Wilmer, new president of the Goodyear Tire and Rubber company, also is president of all of its subsidiary organizations, including the Killingly company. Mr. Candler, assistant treasurer, will be the officer in direct charge at Goodyear.

The new superintendent of the plant is Allen Barrows, who was introduced in Goodyear people at Tuesday afternoon's mass meeting. Mr. Barrows, a

young man just over 30 years of age, comes here from Akron. He is a cotton expert and has been assistant manager of the cotton division of the Goodyear Tire and Rubber company. He is a graduate of the new Bedford Textile school and for a year was with the Monquitt Spinning company, another year with the Bennett Mills and six years with the Holmes Manufacturing company. The winter of 1919-1920 he spent in Egypt studying cotton for the Goodyear Tire and Rubber company.

In his brief address at Goodyear Tuesday afternoon Vice President Litchfield called attention to the fact that the Goodyear companies have gone through a reorganizing process. When the mill with other mills that are also manufacturing next Tuesday morning they will actually be working in competition with other mills that are also manufacturing tire fabric for the parent concern at Akron, O. This, in effect, signifies that the Goodyear fabric mills in this country must produce fabric as cheaply as competing mills manufacturing for the Goodyear Tire and Rubber company in order to make the plant a successful asset to the Goodyear mills on a 40 hour per week, one shift basis will manufacture only 7 per cent. of the fabric now being used by the parent company, now being used by the parent company, now being used by the parent company.

Another feature that enters into the immediate future of the Goodyear mills is the prosperity of the automobile tire industry. The tire business has shown some improvement of late. The greater the sale of tires, the more the fabric that Goodyear tires since contracted for will be put through manufacturing processes and a demand created for more fabric. With a demand for more fabric there naturally will come an increase in production at Goodyear.

Supt. Barrows in a brief talk to Goodyear people at Tuesday afternoon's mass meeting asked for the co-operation of the people of the village in making his administration a success and expressed his

confidence that with this asset the Goodyear mills will be able to compete successfully with other mills manufacturing tire fabric.

The news that the Goodyear plant is to reopen was received with delight throughout the town of Killingly. It is certain to have a stimulating effect upon business and the benefits that will come will be felt by hundreds of people.

Make them yourself! Danielson's free demonstration and instruction for making crepe paper flowers, rope baskets, a wreath, costumes at Dowe's today. See display adv., this page—adv.

This week to be opened at Hartford Tuesday for the contract of making the additions and improvements to the state armory here and for which \$10,000 is made available by the state in a general appropriation measure providing for enlargement and improvement of certain Connecticut armories.

An addition approximately 40 by 70 feet and 12 feet in height is to be built to the Danielson state armory. This addition will have a shed roof and will be built on the western end of the armory. The new structure will give space for housing the motor equipment with the supply company located here is to be outfitted.

Two great doors will open from the addition on the southern side, toward the plant of the River Weaving company. All of the space fronting the armory and the addition to be constructed will be cemented, giving a fine new roadway as an approach to the state's property.

Captain F. O. Armstrong said Tuesday afternoon that he has not been informed as to whether the addition will be of brick, as is the armory, or whether cement will be used.

Captain Armstrong has been notified that 15 Browning light automatic machine guns are to be forwarded to Danielson as part of the equipment of the local armory.

When the addition is completed motor vehicles assigned to the local company will be brought here and stored. It is likely that any of the five and seven ton trucks will be sent here for storage, but there will be numerous smaller vehicles to the number of a score or more.

Chief John McFarland has been investigating relative to serious injury done to a heifer calf, owned by Melvin Wood, of the Green Hollow road while the animal was in pasture. The animal, judging from the nature of its injuries, was subjected to cruel treatment. Two boys reported the animal's condition, and persist in their stories that the calf was as it is now when they found it.

On Tuesday morning the sides of some of the streets in the borough during the heavy rainfall of Monday afternoon. So copious was the downpour for a period of about fifteen minutes that drains were wholly inadequate to carry off the water, which flooded some sections of the borough, but did no serious damage other than to streets.

Reports Tuesday were more favorable concerning the condition of Mrs. Margaret Quinn, who is a patient at the Day Kimball hospital at Putnam, where she was taken Sunday after being injured in an automobile accident near Harmony. R. L. Mrs. Quinn was able to take more nourishment on Tuesday and relatives

here were hopeful of her recovery.

Friday and Saturday after the last opportunity this year for trout fishing. Devotees of the sport took advantage of the trout fishing season comes the open season on bass, which may be taken on and after Friday of this week at Alexander's lake and Quinebaug lake, two favorite resorts for bass fishermen in the past, are permanently closed to fishermen, who now turn to Lake Chaubun, near East Killingly, and other more distant bodies of water.

Two large buses carried many of the members of the Baptist Sunday school away Tuesday morning for the annual outing and picnic.

Steady progress is being made on the construction of the Riggs apartment house on Franklin street, opposite St. James' church, this being the largest structure being built here this summer.

Members of the traffic commercial and plant departments of the S. N. E. T. company in the Danielson, Woodstock and Putnam divisions will be at New London today for one of the periodical conferences with officials of the company.

The Central Worcester company at Central Village is operating days and evenings. Clyde Polouin, who has been a patient at the Day Kimball hospital for the past five weeks, has returned to his home here.

The phrase "heat ever" was invented for Daggett's Real Ice Cream. Moomus—Robert Field, son of Mr. and Mrs. Albert S. Field of Brooklyn, was reported Tuesday as in a favorable condition at the Day Kimball hospital. The little boy recently underwent a surgical operation after developing peritonitis.

North Scituate, R. I. people are excited over the hope that service will be resumed on the Providence and Danielson line between Providence and that place. From North Scituate to East Killingly the rails have been torn up.

Norman White of Boston, owner of a country estate in the Black Hill section of Canterbury, is having a swimming pool made on the place.

Frank L. Davis, agent of the Windham County Farmers' association, was in Brooklyn Monday night with representatives of the county Guernsey association and the county Holstein association, who met at the farm of Marshall Frink to discuss the hope that service will be resumed on the Providence and Danielson line between Providence and that place. From North Scituate to East Killingly the rails have been torn up.

PUTNAM

John Kaine of Mill street was called to St. Cesaire, Canada, Tuesday morning because of the serious illness of his daughter.

Frederick W. Seward, Grove street, returned to Putnam Tuesday from Guilford, where he has been visiting for a few days.

For the third successive year Miss Marion Wheaton, daughter of Dr. and Mrs. Frank Wheaton, Bellingham, Wash., has won the championship cup in tennis at the University of Washington, Seattle. Miss Wheaton is granddaughter of Mrs. Edgar Wheaton, Grove street, Putnam, and has been a visitor here.

During the thunder shower Monday afternoon lightning struck a telegraph pole at the Blackman farm, Killingly road.

Mrs. James Kent and children, Dorothy, James and Vale, who have been the guests during June at the home of Dr. and Mrs. J. Bryden Kent, Church street, returned Tuesday to their home in Larchmont, N. Y.

One of the most beautiful rambling rose bushes in Putnam is now in full bloom in the yard at the home of Mr. and Mrs. John O'Brien, Hammond street, Oak Hill. Members of New London lodge of Elks were guests Tuesday night of the Putnam lodge and initiated candidates. During the evening the visitors presented to the Putnam lodge a flag. Following the regular session, a social time was enjoyed.

Tuesday afternoon the members of the junior choir, June at the home of Dr. and Mrs. J. Bryden Kent, Church street, returned Tuesday to their home in Larchmont, N. Y.

According to those in charge, the campaign among the French-Canadian citizens of Putnam for funds to aid in building and equipping the College of Mt. St. Charles of the Sacred Heart in Woonsocket is progressing favorably.

Before Judge Reed in the superior court at Hartford the divorce case of Mrs. Frederick L. Worwick against Frederick L. Worwick is being heard. The couple were married in Putnam on Feb. 23, 1918. Mrs. Worwick is now living in Manchester. She charges her husband with adultery.

Frank L. Davis, agent of the Windham County Farmers' association, was in Brooklyn Monday night with representatives of the county Guernsey association and the county Holstein association, who met at the farm of Marshall Frink to discuss the hope that service will be resumed on the Providence and Danielson line between Providence and that place. From North Scituate to East Killingly the rails have been torn up.

If you are looking for good shoes at lower prices than you pay elsewhere, come to the New Idea Shoe Store, opposite the Orpheum Theatre and you will be sure of getting your shoes for less money.

THE NEW IDEA SHOE STORE

Danielson, Conn.

there such urgent need of rain so early in the summer as is now the case. Owners of berry patches are suffering because the plants are drying up, or where this is not the case the berries are of a very small size.

Miss Bertha Bourgeois of Worcester was a recent visitor of Putnam relatives. Judge Lucius H. Fuller of Putnam attended the Cartwright-Morse wedding which was Saturday at Sunset Hill, Hampton.

A wedding of much local interest, as well as of particular interest in Boston and Worcester college circles, was held at 4 o'clock Tuesday night at the home of Mr. and Mrs. J. Richard Carpenter, South Main street, Putnam, when their daughter, Miss Marion Emily Carpenter, became the bride of Kenneth Clark Ballard, son of Mr. and Mrs. Newton A. Ballard, Putnam. The ceremony was performed by Rev. Boynton Merrill, pastor of the Second Congregational church of Putnam, and the double ring service was used. For the occasion the Carpenter home had been prettily decorated with palms and ferns, and the supervision of O. B. Herrmannson.

The bride was given away by her father, and was attended by her sister, Miss Eleanor Clark Carpenter, as maid of honor. Stanton Wallace Ballard, a student at Boston university and brother of the groom, was best man. The ushers were Carroll Clark Fletcher of Worcester and Clifford Alderman Clark of Salem, Mass. Only members of the two families were present at the wedding. The wedding march was played by Kenneth Cutler Sharpe, organist at the Second Congregational church.

The bride wore a gown of white satin and point-venise lace with veil of tulle finished with a coronet of orange blossoms. She carried a shower bouquet of white roses and sweet peas. Her maid of honor wore green jade gerbera, cream lace and carried an arm bouquet of pink, lavender and white sweet peas. After the reception Mr. and Mrs. Ballard left by automobile for their wedding trip and later will go to Winthrop, Mass., a suburb of Boston, where they are to make their home.

Mrs. Ballard is a graduate of the class of 1917 of Putnam High school and has always made her home in Putnam. She then was a student for two years at Simmons college in Boston. Mr. Ballard is also a graduate of the Putnam High school, class of 1916. He attended Clark university, where in 1920 he received the degree of bachelor of arts. He did his major work in mathematics and physics. Last year he was a member of the faculty of Simmons college, in the department of physics, and will return to that institution in September.

Frank L. Davis of the Farmers' association will go to Providence today (Wednesday) to attend the annual Farmers' exchange. He will also visit the orchards of T. K. Windsor at Greenville. Mr. Davis will be accompanied by several farmers from Putnam.

As a memorial to the late Chester E. Child, a pipe organ is to be installed in the Second Congregational church of this city. This was decided Monday night at a meeting of the church ecclesiastical committee. Mr. Child, who died about four years ago, was a member of the church, one of its active workers, and for many years the superintendent of the Sunday school. Upon his death he left a part of his estate to the Second Congregational society. This fund will now be used in purchasing the organ. Mr. Child is heartily in sympathy with the

Reports of the treasurer and membership campaign committee showed the organization in flourishing condition, and plans were discussed for greatly increasing the chamber activities this fall. Among these are plans for regular meetings, probably beginning in September. (The weekly meetings of the chamber for the coming year.)

Reports of the canvassing committee showed that the membership drive has resulted in 164 new members, with many more still to be secured. Committees were appointed to draw up comprehensive lists of citizens who, in the committee's opinion, should be members of the chamber, and the present canvassing committee will continue during the summer to interview these. The next, and probably the last, membership meeting during the vacation season will be held July 11.

Mrs. C. B. Willey entertained at four tables of bridge Monday night at her home on Oak Hill. Prizes were won by Mrs. Edward Burr, Mrs. Charles Dean, Mrs. Ernest C. Morse and Mrs. Stewart Fisher.

Stanley Gieniski, 16, of Woodstock Valley, was held on Tuesday at the Putnam police station while awaiting trial before Woodstock town officials, this in (Wednesday) morning on a charge of stealing a canoe, valued at \$50, from the estate of G. H. Myers, North Ashford. According to the story told by Gieniski he bought the canoe some time ago from a man in Williamstown, paying \$15 for it. He was planning to leave Woodstock this week and so sold it to Julius, Kiel of School street, this city.

It is said that gold is so malleable that it can be beaten as thin as a railway sandwich.
